

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates.

The current FCC proceeding seems skewed towards further scaling back regulations that are intended to promote media diversity and protect civic, minority and NONCOMMERCIAL voices. I strongly object to this agenda. The mandate of the FCC is one to serve and Protect the public interest__Not the corporate/political agenda. It is not the case that diversity is served or even continued when media consolidation is allowed to replace authentic of perspective, opinion and content.
